Got it, thanks!

Stay safe,

Nick

Ok, request for box sent. Just got to this one. As soon as I see it has been generated, I will add these names to it (REOC) as users. Will copy you on that.

Email is fine since I have a visual reminder that way, but it is perfectly OK to call me. If I'm busy, it can go to VM and I will call back. If I don't see a message, I don't return those calls as I figure it isn't a big deal.

Thanks,
Derek

Yep. We have a field unit box. Does there need to be an REOC envl box also?
Let me know and I will initiate that.
No biggie

I don't want to cause confusion, but Carolyn suggested I send you an email.
Several folks have been activated and they aren't approved to access the unit mailboxes.
I can send stuff, but I cannot open and read.
Is there an easy way to add me into the R6HARVEYENVL?

Thanks in advance!

Nick
